

Lost Moon // Brooke Lunderville

I feel like a lost moon
Hopelessly circling what used to be your favourite place
I wish you'd come back soon
It's harder each orbit to act like it's not empty space

capo 3

G Dm (shampoo, rinse, repeat)

We don't have to become a binary pair
I just want to reside inside your light cone
Won't you give me a sign that you are still there
Gravitation's a game that you can't play alone

Ahhh.....

Em Eb Bb Dm G

I feel like a lost moon
Hopelessly circling what used to be your favourite place
I wish you'd come back soon
It's harder each orbit to act like it's not empty space

I have searched every quadrant of the night sky
But your heavenly body is not to be found
How long must I wait to hear your reply?
I keep calling your name, but no echo rebounds

Ahhh.....
